

Bear-Tex... tough, flexible and consistent

Bear-Tex products resist loading, and are extremely flexible to help get into the hard-to-reach places.

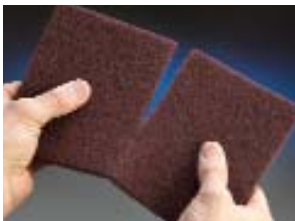

FEATURES	BENEFITS
■ Improved weave design	■ Strengthens the pad
	■ Allows for a more uniform scratch pattern
■ Improved tensile strength	■ Rinses easily for reuse
	■ Resists shredding and tearing
■ Improved flexibility	■ Good for hard to reach places

Bear-Tex Scuff Pads and Rolls

Tough synthetic fiber pads and rolls won't rust or shred and can be rinsed and reused repeatedly. Use on old paint, primer surfacer, metal, plastic, body filler, or fiberglass. Strong, yet flexible, for getting into tight places.

White, Light Duty non-abrasive pads won't scratch the surface. They can be used to remove paint overspray.

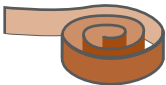

Gray (perforated), Final Prep pads are perfect for the final preparation of surfaces. And no other pad can blend a finish better. Ideal for today's paint systems.

Maroon (perforated), Heavy-Duty are ideal for prepping replacement parts. Strong, yet flexible enough to get into the hardest to reach places.

Scuff Pads

SIZE	6" X 9"	PACKAGE	PKG/CASE
			
DESCRIPTION	COLOR	662610-

Bear-Tex Rapid Strip Discs

Bear-Tex Rapid Strip Discs are constructed with thick, strong synthetic fibers and extra-coarse silicon carbide abrasive. The open web construction of the disc provides fast cutting action with very little loading. Safer than wire bristle tools, THE BEAST aggressively removes rust and paint from drip moldings, pinch welds, door jambs, seams and other difficult to reach areas. The robust TR+ attachment system allows for rugged cleaning in tight areas. TR+ can be used on all competitive back-up pads utilizing a similar system.

Bear-Tex Speed-Lok TR Rapid Strip Disc

SIZE	2" TR	3" TR	RPM	PACKAGE	PKG/CASE
					
COLOR	662610-	662610-			
Black	11782	-	15000	10	1
Black	-	11781	12000	10	1
DESCRIPTION	662610-	662610-			
Back-Up Pad	55103	55105	-	10	1

Excellent for removal of rust, undercoating, seam-sealers and stone guards, these discs can get into hard-to-reach areas like wheel wells and under carriage. Ideal for trunk beds and door jambs. Use to remove oxidation from tire rims and to remove rust from brake assemblies.

Bear-Tex Surface Blending Discs

- Blue = Fine (320)
- Maroon = Medium (120)
- Brown = Coarse (80)

Bear-Tex Surface Blending Discs deliver superior, consistent finishes whenever you need to clean, deburr, blend or finish. Bear-Tex surface blending discs provide a higher rate of cut for increased productivity and much longer life. Ideal for removing rust and oxides, blending out disc marks, and removing coatings and gasket residues from automotive surfaces. Thick, reinforced non-woven backing is impregnated with tough aluminum oxide abrasive.

Product color coding (by grit) makes work fast and easy.

See pages 35 and 36 for back-up pads.

Disc Attachment Systems

Speed-Lok TR surface blending discs are compatible with the Norton Speed-Lok TR and similar competitive attachment systems.

Speed-Lok surface blending discs are compatible with the Norton Speed-Lok and similar competitive attachment systems.

Speed-Grip Surface Blending discs feature a hook and loop fastening system.

Bear-Tex Brushes

Made with tough, yet flexible nylon filaments heavily embedded with silicon carbide abrasive. Bear-Tex brushes offer significant advantages over wire brushes, steel wool, and other abrasive forms where conformability and longer life are needed. Excellent for work on pick-up truck beds. Requires air-cooled back-up pad for operation, found on page 37.
